## Disasters:

**Declaration Number**

FEMA-1763-DR-IA

## Plan Description:

In the late spring and early summer of 2008, the State of Iowa suffered through a series of disastrous events, tornados followed by record-breaking floods. In some cases, the same community was hit by both events. Also, in some Iowa communities the 2008 flood crested 8 feet higher than the flood of 1993. Among the larger communities, Cedar Rapids, Iowas second-largest city, was especially hard hit. It is estimated that 1300 blocks in Cedar Rapids were flooded to the point that repair/rehabilitation will be difficult to impossible in many of those areas. It is estimated that, statewide, over 21,000 housing units have been damaged, with over 4200 of those destroyed or suffering major structural damage. Also, an estimated 2400 businesses were damaged physically, and another 3000+ have suffered economic losses. It is quite clear that FEMA and SBA assistance will not come close to covering all of the uninsured costs associated with the damage.

## Recovery Needs:

A. Housing repair/rehabilitation, homebuyer assistance, and interim mortgage assistance.

Homes not slated for buyouts will receive assistance to make needed repairs and rehabilitation. Households whose homes were destroyed or damaged beyond reasonable repair will be offered assistance on the down payment for replacement housing. Households who are within buyout areas will be offered assistance to maintain mortgages that would otherwise go into default, during the period before the buyout occurs.

Allocation for Activity: \$57,518,337 will be allocated to this activity. Based on local need, each applicant will determine amounts to be spent among the sub-activities.

B. Lead Hazard/Lead-Based Paint Abatement Training

This allocation will fund training for contractors and other professionals involved with lead hazard/lead-based paint abatement. Building capacity for this throughout the disaster recovery area is a critical need.

Allocation for Activity: \$250,000 will be allocated to this activity.

C. Housing Buyouts FEMA Match

CDBG funds will be used as the 15% local match required for the FEMA home buyouts in flood-prone areas.

Allocation for Activity: \$20 million will be allocated to this activity

D. New Housing Production

Assistance will be provided to developers of new affordable rental and owner-occupied housing. These units will

replace housing lost due to the disaster. The assistance may also be used for streets, sewer and water extensions linked to development of replacement housing.

Allocation for Activity: \$23,035,737 will be allocated to this activity

#### E. Small Business Stimulus

Business owners suffering physical damage or economic loss will be offered forgivable loans up to \$50,000. The purpose of these loans is to provide working capital to help ensure business survival.

Allocation for Activity: \$15 million will be allocated to this activity.

#### F. Public Infrastructure - Match for FEMA Hazard Mitigation Projects

CDBG funds will be used as the 15% local match required for infrastructure projects funded under the FEMA Hazard Mitigation Program.

Allocation for Activity: \$16 million will be allocated to this activity

#### G. Public Infrastructure - Non-FEMA

This assistance is for projects that FEMA or other sources cannot fund, but which are nevertheless critical to recovery. Examples include damaged water and sewer systems, storm drainage, levees, roads and bridges.

Allocation for Activity: \$15.75 million will be allocated to this activity

#### H. Disaster REcovery Case Management

The primary purpose of the Disaster Recovery Case Management activity is to ensure that all lowans receive the necessary assistance and access to resources to recover from disaster. Case advocates will establish one-on-one relationships with individual clients impacted, to assess disaster related needs, develop long term recovery goals and plans, and implement steps to achieve their recovery goal.

Allocation for Activity: \$1,302,200 will be allocated to this activity

## Progress Toward Activity Type Targets

## Progress Toward National Objective Targets

### Overall Progress Narrative:

The B-08-DF-19-0001 (Midwest Floods) grant is 83% committed at this time, with the remaining funds of over \$26 million split between Infrastructure and Housing funds. The remaining Infrastructure funds are mostly reserved for match to FEMA Hazard Mitigation projects yet to be determined. The housing funds are in several areas, and plans are currently underway to utilize these funds in either further buyout payments or for production of owner-occupied housing. The first appropriation housing funds have been heavily devoted to the single family homeowner arena, with rental projects being funded from the second appropriation (Ike) funds. The business funds are mostly spent, having assisted 406 businesses overall.

**Plan Description:**

THE EFFECT OF THE DISASTERS AND IOWAS RECOVERY NEEDS In the late spring and early summer of 2008, the State of Iowa suffered through a series of disastrous events, tornados followed by record-breaking floods. In some cases, the same community was hit by both events. Also, in some Iowa communities the 2008 flood crested 8 feet higher than the flood of 1993. Among the larger communities, Cedar Rapids, Iowa's second-largest city, was especially hard hit. It is estimated that 1300 blocks in Cedar Rapids were flooded to the point that repair/rehabilitation will be difficult to impossible in many of those areas. It is estimated that, statewide, over 21,000 housing units have been damaged, with over 4200 of those destroyed or suffering major structural damage. Also, an estimated 2400 businesses were damaged physically, and another 3000+ have suffered economic losses. It is quite clear that FEMA and SBA assistance will not come close to covering all of the uninsured costs associated with the damage.

**Recovery Needs:**

Following are estimates of damages compiled by the Rebuild Iowa Advisory Commission in just three community/economic development categories. (The full reports from the Commission are available at <http://rio.iowa.gov/> )

**Economic and Workforce Development**

\*\*Total estimated unmet need for small and intermediate businesses - \$2.78 billion

» » \$5.36 billion total assessed damage.

» » Approximately 4,800 non-manufacturing small businesses and 800 intermediate businesses were impacted.

\*\*Large businesses experienced an estimated \$100 million in losses.

\*\*Small business and non-profit corporations - \$600 million in lost revenue in one year in the Cedar Rapids area, according to a report from Iowa Commercial Realty in Cedar Rapids.

\*\*Physical damage to businesses from a Safeguard Iowa online survey - \$426,011,267; economic loss - \$178,593,361.

\*\*Manufacturing damages and lost income from the ISU Center for Industrial Research and Service (CIRAS) survey - \$100 million projected.

\*\*Increase in unemployment rate from Iowa Workforce Development data 3.9% in May; 4% in June; 4.3% in July, 4.6% in August.

\*\*Initial claims for unemployment insurance program - increased by over 6,500 (over 44% increase) from May to June 2008, according to Mass Layoffs Statistics.

**Housing**

Cost to communities and to the state to repair and replace the damage to housing:

\*\*The total unmet housing need is \$946 million for single family and multi-family housing.

» » \$90 million is for rental property

» » \$856 million is for single family dwellings

\*\*The unmet housing need represents need remaining after all insurance and government housing program

assistance is taken into account.

#### Infrastructure and Transportation

##### \*\*Roads and bridges

- »» Federal aid routes - \$30 million according to Iowa Department of Transportation as of August 8, 2008
- »» County roads - \$43 million according to FEMA County Survey as of July 31, 2008
- »» Roads and bridges - \$55 million according to FEMA as of July 29, 2008

##### \*\*Public Transit - \$53 million according to Iowa Department of Transportation as of August 8, 2008

##### Rebuild Iowa Advisory Commission

##### \*\*Railroads, according to Iowa Department of Transportation as of August 8, 2008

- »» Class 1 railroads - \$45 to \$60 million
- »» Short line railroads - \$23 million

##### \*\*Communications and Utilities

»» Telecommunications - \$66 million according to Iowa Telecom, rural independent telephone companies, and Qwest as of August 7, 2008

»» Public utilities (water, wastewater, power generation, communications) - \$342 million according to FEMA as of August 11, 2008

»» Private utilities and communications companies are not eligible for FEMA assistance.

\*\*Flood control facilities (drainage channels, pumping facilities, some flood control facilities) - \$13 million according to FEMA estimates as of August 11, 2008

\*\*Public buildings and equipment - \$380 million according to FEMA estimates as of August 11, 2008

»» In order for public buildings located in a floodplain to receive FEMA assistance, they must pay the first \$500,000 of cost for damage to the structure and \$500,000 of cost for damage to contents.

»» This creates an additional unmet need for many communities.

\*\*Total estimated unmet need for public buildings and infrastructure - \$703 million

»» Total damages to publicly-owned buildings and infrastructure - \$798.3 million

»» Information was compiled in cooperation with other state and federal agencies by the Rebuild Iowa Office.

**Activity Description:**

Business Rental Assistance Program: Rental assistance to businesses in flood damaged area of Cedar Falls who received damage during the floods of 2008, to offset building rental lease payments for a maximum of six months. Also includes Expanded BRAP; Loan Interest Supplement; Residential Landlord Business Support;and Commercial Rental Revenue Gap

**Location Description:**

City of Cedar Rapids

**Activity Progress Narrative:**

Last quarter, the single activity for this recipient was divided into two activities &ndash one for LMI and one for U/N. In most cases where dollars were already drawn on the one activity, the recipients provided supplementary information on amounts attributable to LMI or UN, and appropriate amounts were transferred to the newly created activity. After conferring with HUD headquarters staff, it was decided we would correct it on this QPR. Totals should be correct for these activities now.

**Activity Progress Narrative:**

Last quarter, the single activity for this recipient was divided into two activities &ndash one for LMI and one for U/N. In most cases where dollars were already drawn on the one activity, the recipients provided supplementary information on amounts attributable to LMI or UN, and appropriate amounts were transferred to the newly created activity. After conferring with HUD headquarters staff, it was decided we would correct it on this QPR. Totals should be correct for these activities now.

Business Rental Assistance Program: Rental assistance to businesses in flood damaged area of Cedar Falls who received damage during the floods of 2008, to offset building rental lease payments for a maximum of six months. Also includes Expanded BRAP; Loan Interest Supplement; Residential Landlord Business Support;and Commercial Rental Revenue Gap

**Location Description:**

Eleven counties in NE Iowa encompassed by Iowa Northland Regional Council of Governments and the Upper Explorerland Regional Planning Commission, excluding the cities of Cedar Falls and Waterloo.

**Activity Progress Narrative:**

Last quarter, the single activity for this recipient was divided into two activities &ndash one for LMI and one for U/N. In most cases where dollars were already drawn on the one activity, the recipients provided supplementary information on amounts attributable to LMI or UN, and appropriate amounts were transferred to the newly created activity. After conferring with HUD headquarters staff, it was decided we would correct it on this QPR. Totals should be correct for these activities now.

**Activity Description:**

Business Rental Assistance Program: Rental assistance to businesses in flood damaged area of Cedar Falls who received damage during the floods of 2008, to offset building rental lease payments for a maximum of six months. Also includes Expanded BRAP; Loan Interest Supplement; Residential Landlord Business Support;and Commercial Rental Revenue Gap

**Location Description:**

The following counties and cities within those counties: Linn County, Benton County, Jones County, Iowa County, Johnson County, Washington County, excluding the cities of Cedar Rapids and Iowa City

**Activity Progress Narrative:**

Last quarter, the single activity for this recipient was divided into two activities &ndash one for LMI and one for U/N. In most cases where dollars were already drawn on the one activity, the recipients provided supplementary information on amounts attributable to LMI or UN, and appropriate amounts were transferred to the newly created activity. After conferring with HUD headquarters staff, it was decided we would correct it on this QPR. Totals should be correct for these activities now.

Update of flood plain maps

**Location Description:**

**Activity Progress Narrative:**

The Iowa Flood Center (IFC) completed the pilot project this past quarter. They have provided all of the products specified in the contract and we were very pleased with their work.

The University of Iowa, Hydroscience & Engineering (IHR) will conduct a pilot study for the Iowa Department of Natural Resources (IDNR) statewide floodplain mapping program. The pilot study will include approximate zone mapping of Poweshiek County, completed to the work map level.

The scope of services lists:

- Inundation mapping
- Hydrologic analysis
- Discharge calculation
- Hydraulic analysis

These tasks will be documented in detail to assist IDNR in evaluating time and costs associated with various components of the mapping program. Other deliverables will include GIS and model data generated as part of the study.

## Disasters:

### Declaration Number

FEMA-1763-DR-IA

## Plan Description:

In the late spring and early summer of 2008, the State of Iowa suffered through a series of disastrous events, tornados followed by record-breaking floods. In some cases, the same community was hit by both events. Also, in some Iowa communities the 2008 flood crested 8 feet higher than the flood of 1993. Among the larger communities, Cedar Rapids, Iowas second-largest city, was especially hard hit. It is estimated that 1300 blocks in Cedar Rapids were flooded to the point that repair/rehabilitation will be difficult to impossible in many of those areas. It is estimated that, statewide, over 21,000 housing units have been damaged, with over 4200 of those destroyed or suffering major structural damage. Also, an estimated 2400 businesses were damaged physically, and another 3000+ have suffered economic losses. It is quite clear that FEMA and SBA assistance will not come close to covering all of the uninsured costs associated with the damage.

## Recovery Needs:

A. Housing repair/rehabilitation, homebuyer assistance, and interim mortgage assistance.

Homes not slated for buyouts will receive assistance to make needed repairs and rehabilitation. Households whose homes were destroyed or damaged beyond reasonable repair will be offered assistance on the down payment for replacement housing. Households who are within buyout areas will be offered assistance to maintain mortgages that would otherwise go into default, during the period before the buyout occurs.

Allocation for Activity: \$57,518,337 will be allocated to this activity. Based on local need, each applicant will determine amounts to be spent among the sub-activities.

B. Lead Hazard/Lead-Based Paint Abatement Training

This allocation will fund training for contractors and other professionals involved with lead hazard/lead-based paint abatement. Building capacity for this throughout the disaster recovery area is a critical need.

Allocation for Activity: \$250,000 will be allocated to this activity.

C. Housing Buyouts FEMA Match

CDBG funds will be used as the 15% local match required for the FEMA home buyouts in flood-prone areas.

Allocation for Activity: \$20 million will be allocated to this activity

D. New Housing Production

Assistance will be provided to developers of new affordable rental and owner-occupied housing. These units will

replace housing lost due to the disaster. The assistance may also be used for streets, sewer and water extensions linked to development of replacement housing.

Allocation for Activity: \$23,035,737 will be allocated to this activity

#### E. Small Business Stimulus

Business owners suffering physical damage or economic loss will be offered forgivable loans up to \$50,000. The purpose of these loans is to provide working capital to help ensure business survival.

Allocation for Activity: \$15 million will be allocated to this activity.

#### F. Public Infrastructure - Match for FEMA Hazard Mitigation Projects

CDBG funds will be used as the 15% local match required for infrastructure projects funded under the FEMA Hazard Mitigation Program.

Allocation for Activity: \$16 million will be allocated to this activity

#### G. Public Infrastructure - Non-FEMA

This assistance is for projects that FEMA or other sources cannot fund, but which are nevertheless critical to recovery. Examples include damaged water and sewer systems, storm drainage, levees, roads and bridges.

Allocation for Activity: \$15.75 million will be allocated to this activity

#### H. Disaster REcovery Case Management

The primary purpose of the Disaster Recovery Case Management activity is to ensure that all lowans receive the necessary assistance and access to resources to recover from disaster. Case advocates will establish one-on-one relationships with individual clients impacted, to assess disaster related needs, develop long term recovery goals and plans, and implement steps to achieve their recovery goal.

Allocation for Activity: \$1,302,200 will be allocated to this activity

## Progress Toward Activity Type Targets

## Progress Toward National Objective Targets

### Overall Progress Narrative:

The B-08-DF-19-0001 (Midwest Floods) grant is 85% committed at this time, with the remaining funds of over \$22 million split between Infrastructure and Housing funds. The remaining Infrastructure funds are mostly reserved for match to FEMA Hazard Mitigation projects yet to be determined. The housing funds are in several areas, and plans are currently underway to utilize these funds in either further buyout payments or for production of owner-occupied housing. The first appropriation housing funds have been heavily devoted to the single family homeowner arena, with rental projects being funded from the second appropriation (Ike) funds.

**Plan Description:**

THE EFFECT OF THE DISASTERS AND IOWAS RECOVERY NEEDS In the late spring and early summer of 2008, the State of Iowa suffered through a series of disastrous events, tornados followed by record-breaking floods. In some cases, the same community was hit by both events. Also, in some Iowa communities the 2008 flood crested 8 feet higher than the flood of 1993. Among the larger communities, Cedar Rapids, Iowa's second-largest city, was especially hard hit. It is estimated that 1300 blocks in Cedar Rapids were flooded to the point that repair/rehabilitation will be difficult to impossible in many of those areas. It is estimated that, statewide, over 21,000 housing units have been damaged, with over 4200 of those destroyed or suffering major structural damage. Also, an estimated 2400 businesses were damaged physically, and another 3000+ have suffered economic losses. It is quite clear that FEMA and SBA assistance will not come close to covering all of the uninsured costs associated with the damage.

**Recovery Needs:**

Following are estimates of damages compiled by the Rebuild Iowa Advisory Commission in just three community/economic development categories. (The full reports from the Commission are available at <http://rio.iowa.gov/> )

**Economic and Workforce Development**

\*\*Total estimated unmet need for small and intermediate businesses - \$2.78 billion

» » \$5.36 billion total assessed damage.

» » Approximately 4,800 non-manufacturing small businesses and 800 intermediate businesses were impacted.

\*\*Large businesses experienced an estimated \$100 million in losses.

\*\*Small business and non-profit corporations - \$600 million in lost revenue in one year in the Cedar Rapids area, according to a report from Iowa Commercial Realty in Cedar Rapids.

\*\*Physical damage to businesses from a Safeguard Iowa online survey - \$426,011,267; economic loss - \$178,593,361.

\*\*Manufacturing damages and lost income from the ISU Center for Industrial Research and Service (CIRAS) survey - \$100 million projected.

\*\*Increase in unemployment rate from Iowa Workforce Development data 3.9% in May; 4% in June; 4.3% in July, 4.6% in August.

\*\*Initial claims for unemployment insurance program - increased by over 6,500 (over 44% increase) from May to June 2008, according to Mass Layoffs Statistics.

**Housing**

Cost to communities and to the state to repair and replace the damage to housing:

\*\*The total unmet housing need is \$946 million for single family and multi-family housing.

» » \$90 million is for rental property

» » \$856 million is for single family dwellings

\*\*The unmet housing need represents need remaining after all insurance and government housing program

assistance is taken into account.

#### Infrastructure and Transportation

##### \*\*Roads and bridges

- »» Federal aid routes - \$30 million according to Iowa Department of Transportation as of August 8, 2008
- »» County roads - \$43 million according to FEMA County Survey as of July 31, 2008
- »» Roads and bridges - \$55 million according to FEMA as of July 29, 2008

##### \*\*Public Transit - \$53 million according to Iowa Department of Transportation as of August 8, 2008

##### Rebuild Iowa Advisory Commission

##### \*\*Railroads, according to Iowa Department of Transportation as of August 8, 2008

- »» Class 1 railroads - \$45 to \$60 million
- »» Short line railroads - \$23 million

##### \*\*Communications and Utilities

»» Telecommunications - \$66 million according to Iowa Telecom, rural independent telephone companies, and Qwest as of August 7, 2008

»» Public utilities (water, wastewater, power generation, communications) - \$342 million according to FEMA as of August 11, 2008

»» Private utilities and communications companies are not eligible for FEMA assistance.

\*\*Flood control facilities (drainage channels, pumping facilities, some flood control facilities) - \$13 million according to FEMA estimates as of August 11, 2008

\*\*Public buildings and equipment - \$380 million according to FEMA estimates as of August 11, 2008

»» In order for public buildings located in a floodplain to receive FEMA assistance, they must pay the first \$500,000 of cost for damage to the structure and \$500,000 of cost for damage to contents.

»» This creates an additional unmet need for many communities.

\*\*Total estimated unmet need for public buildings and infrastructure - \$703 million

»» Total damages to publicly-owned buildings and infrastructure - \$798.3 million

»» Information was compiled in cooperation with other state and federal agencies by the Rebuild Iowa Office.

**Activity Description:**

Sanitary sewer repairs in the Highland Hills neighborhood area.

Lining of sanitary sewers.

This project is designed to mitigate excessive infiltration and inflow of ground- and surface waters into the sewer system such as that caused by the 2008 disaster, which resulted in treatment plant overloads and sewage backups.

The activity creates an improved facility over that which existed prior to the disaster.

State review of local financial capacity indicates that the project is unlikely to proceed without CDBG & DR funds.

At the request of the State, the applicants have determined percentages of residential vs. non-residential impact through reviewing engineering maps, zoning maps, and/or specific parcel data.

This activity is a DREF Qualifying Activity C.

City of Des Moines

**Activity Progress Narrative:**

Approximately 27% (\$325,993) of the Project Funds have been expended. Approximately 99% of Engineering is complete and approximately 90% of Construction is complete.

**Activity Description:**

Install additional capacity to the existing West pond berm and collect and redirect storm water flow through Glidden. Storm water retention.

This project is designed to mitigate flooding as well as excessive infiltration and inflow of ground- and surface waters into the sanitary sewer system such as that caused by the 2008 disaster, which resulted in treatment plant overloads and sewage backups.

The activity creates an improved facility over that which existed prior to the disaster.

State review of local financial capacity indicates that the project is unlikely to proceed without CDBG & DR funds.

At the request of the State, the applicants have determined percentages of residential vs. non-residential impact through reviewing engineering maps, zoning maps, and/or specific parcel data. This activity is a DREF qualifying activity C.

**Activity Progress Narrative:**

As of April 30, we have delivered 117 workshops and classes to 1981 attendees. In the last month we have hosted a professional HVAC workshop in Sioux City, an Exterior Lighting Design workshop in Cedar Rapids at the Alliant Energy facility, a commercial Day of Sustainability in Fairfield, continued the West Union workshop series, and partnered with ISWEP to provide a Rainscaping Rain Garden workshop in Bettendorf. We were also able to set up and facilitate a design charrette for Habitat for Humanity of Marion County. The RBSI program helped them to get in touch with local experts and move towards one of their goals: they are hoping to receive grant funding to incorporate Iowa Green Streets criteria into one or more of their homes this year.

As of May 31, we have delivered 124 workshops and classes to 2154 attendees. In the month of May we hosted a Day of Sustainability in Davenport, the last of our 10 professional workshops in West Union, a Selecting a Contractor workshop for homeowners in Cedar Rapids, and two historic window preservation workshops with Bob Yapp in Iowa City and Cedar Rapids. As of June 30, we have delivered 129 workshops and classes to 2371 attendees. During June we hosted four community open houses for the affordable green demonstration homes in West Des Moines and West Union, as well as hosted an Exterior Lighting Design commercial workshop in Des Moines, in partnership with 1000 Friends of Iowa.

**Narratives****Disaster Damage:**

In the late spring and early summer of 2008, the State of Iowa suffered through a series of disastrous events, tornados followed by record-breaking floods. In some cases, the same community was hit by both events. Also, in some Iowa communities the 2008 flood crested 8 feet higher than the flood of 1993. Among the larger communities, Cedar Rapids, Iowa's second-largest city, was especially hard hit. It is estimated that 1300 blocks in Cedar Rapids were flooded to the point that repair/rehabilitation will be difficult to impossible in many of those areas. It is estimated that, statewide, over 21,000 housing units have been damaged, with over 4200 of those destroyed or suffering major structural damage. Also, an estimated 2400 businesses were damaged physically, and another 3000+ have suffered economic losses. It is quite clear that FEMA and SBA assistance will not come close to covering all of the uninsured costs associated with the damage.

**Recovery Needs:**

A. Housing repair/rehabilitation, homebuyer assistance, and interim mortgage assistance. Homes not slated for buyouts will receive assistance to make needed repairs and rehabilitation. Households whose homes were destroyed or damaged beyond reasonable repair will be offered assistance on the down payment for replacement housing. Households who are within buyout areas will be offered assistance to maintain mortgages that would otherwise go into default, during the period before the buyout occurs. Allocation for Activity: \$57,518,337 will be allocated to this activity. Based on local need, each applicant will determine amounts to be spent among the sub-activities. B. Lead Hazard/Lead-Based Paint Abatement Training This allocation will fund training for contractors and other professionals involved with lead hazard/lead-based paint abatement. Building capacity for this throughout the disaster recovery area is a critical need. Allocation for Activity: \$250,000 will be allocated to this activity. C. Housing Buyouts &ndash FEMA Match CDBG funds will be used as the 15% local match required for the FEMA home buyouts in flood-prone areas. Allocation for Activity: \$20 million will be allocated to this activity D. New Housing Production Assistance will be provided to developers of new affordable rental and owner-occupied housing. These units will replace housing lost due to the disaster. The assistance may also be used for streets, sewer and water extensions linked to development of replacement housing. Allocation for Activity: \$23,035,737 will be allocated to this activity E. Small Business Stimulus Business owners suffering physical damage or economic loss will be offered forgivable loans up to \$50,000. The purpose of these loans is to provide working capital to help ensure business survival. Allocation for Activity: \$15 million will be allocated to this activity. F. Public Infrastructure - Match for FEMA Hazard Mitigation Projects CDBG funds will be used as the 15% local match required for infrastructure projects funded under the FEMA Hazard Mitigation Program. Allocation for Activity: \$16 million will be allocated to this activity G. Public Infrastructure - Non-FEMA This assistance is for projects that FEMA or other sources cannot fund, but which are nevertheless critical to recovery. Examples include damaged water and sewer systems, storm drainage, levees, roads and bridges. Allocation for Activity: \$15.75 million will be allocated to this activity H. Disaster REcovery Case Management The primary purpose of the Disaster Recovery Case Management activity is to ensure that all Iowans receive the necessary assistance and access to resources to recover from disaster. Case advocates will establish one-on-one relationships with individual clients impacted, to assess disaster related needs, develop long term recovery goals and plans, and implement steps to achieve their recovery goal. Allocation for Activity: \$1,302,200 will be allocated to this activity

## Progress Toward Activity Type Targets

## Progress Toward National Objective Targets

### Overall Progress Narrative:

The B-08-DF-19-0001 (Midwest Floods) grant is 77% committed at this time, with the remaining funds of over \$33 million split between Infrastructure and Housing funds. The remaining Infrastructure funds are mostly reserved for match to FEMA Hazard Mitigation projects yet to be determined. The housing funds are in several areas, and plans are currently underway to utilize these funds in either further buyout payments or for production of owner-occupied housing. The first appropriation housing funds have been heavily devoted to the single family homeowner arena, with rental projects being funded from the second appropriation (Ike) funds.

## Narratives

### Disaster Damage:

THE EFFECT OF THE DISASTERS AND IOWA'S RECOVERY NEEDS In the late spring and early summer of 2008, the State of Iowa suffered through a series of disastrous events, tornados followed by record-breaking floods. In some cases, the same community was hit by both events. Also, in some Iowa communities the 2008 flood crested 8 feet higher than the flood of 1993. Among the larger communities, Cedar Rapids, Iowa's second-largest city, was especially hard hit. It is estimated that 1300 blocks in Cedar Rapids were flooded to the point that repair/rehabilitation will be difficult to impossible in many of those areas. It is estimated that, statewide, over 21,000 housing units have been damaged, with over 4200 of those destroyed or suffering major structural damage. Also, an estimated 2400 businesses were damaged physically, and another 3000+ have suffered economic losses. It is quite clear that FEMA and SBA assistance will not come close to covering all of the uninsured costs associated with the damage.

### Recovery Needs:

**Activity Description:**

Preparation of new flood plain maps for areas within the federally declared diaster areas in Iowa as a result of the floods of 2008.

This activity is a part of a Forward-thinking land use plan (DREF Qualifying Activity A).

**Location Description:**

Statewide

**Activity Progress Narrative:**

Most of the activity this quarter has been data collection and preparing data for mapping. The following progress has occurred:

**Data Collection:** Stream centerlines of flooding sources in southwest have been digitized from high resolution LiDAR elevation data so that accurate flow area accumulations and peak discharges can be determined. To date, four (4) HUC-8 watersheds in southwest Iowa have been completed. There are 57 HUC-8 watersheds in the state of Iowa.

**Map Preparation:** Work has begun on a FEMA-required Quality Control (QC) Plan to ensure accuracy and completeness in the mapping data being developed. This QC Plan is scheduled for completion by November 22, 2010. Development of hydrologic and hydraulic information is underway for completion of countywide floodplain maps for four (4) counties in southwest Iowa.

**Map and Data Storage in Digital Format:** Work has begun on a data warehouse to include geospatial databases that meet the requirements of FEMA guidelines and specifications, and will include data formats for use in enterprise GIS systems. This flood hazard data will also be accessible to various client applications such as internet browsers, desktop GIS systems, and relational databases.

Install additional capacity to the existing West pond berm and collect and redirect storm water flow through Glidden. Construct earthwork to extend pond 130 LF and match 105 FT elevation, excavate 16,000 CY from within existing pond to provide additional capacity. This project is designed to mitigate flooding as well as excessive infiltration and inflow of ground- and surface waters into the sanitary sewer system such as that caused by the 2008 disaster, which resulted in treatment plant overloads and sewage backups. The activity creates an improved facility over that which existed prior to the disaster. State review of local financial capacity indicates that the project is unlikely to proceed without CDBG & DR funds. **Activity Description:**

Construct improvements to the wastewater treatment lagoon, upgrade sanitary lift stations and sewer lining. Construct a floodwall around the lagoons, lift station improvements at 4 locations, and replacing or repair of sanitary lines. This project is designed to mitigate flooding of the wastewater lagoons and other parts of the city, as well as excessive infiltration and inflow of ground- and surface waters into the sewer system such as that caused by the 2008 disaster, which resulted in treatment plant overloads and sewage backups. The activity creates an improved facility over that which existed prior to the disaster. State review of local financial capacity indicates that the project is unlikely to proceed without CDBG & DR funds. At the request of the State, the applicants have determined percentages of residential vs. non-residential impact through reviewing engineering maps, zoning maps, and/or specific parcel data.

This activity is a DREF qualifying activity C.

## Disasters:

### Declaration Number

FEMA-1763-DR-IA

## Narratives

**Disaster Damage:**

In the late spring and early summer of 2008, the State of Iowa suffered through a series of disastrous events, tornados followed by record-breaking floods. In some cases, the same community was hit by both events. Also, in some Iowa communities the 2008 flood crested 8 feet higher than the flood of 1993. Among the larger communities, Cedar Rapids, Iowa's second-largest city, was especially hard hit. It is estimated that 1300 blocks in Cedar Rapids were flooded to the point that repair/rehabilitation will be difficult to impossible in many of those areas. It is estimated that, statewide, over 21,000 housing units have been damaged, with over 4200 of those destroyed or suffering major structural damage. Also, an estimated 2400 businesses were damaged physically, and another 3000+ have suffered economic losses. It is quite clear that FEMA and SBA assistance will not come close to covering all of the uninsured costs associated with the damage.

**Recovery Needs:**

A. Housing repair/rehabilitation, homebuyer assistance, and interim mortgage assistance. Homes not slated for buyouts will receive assistance to make needed repairs and rehabilitation. Households whose homes were destroyed or damaged beyond reasonable repair will be offered assistance on the down payment for replacement housing. Households who are within buyout areas will be offered assistance to maintain mortgages that would otherwise go into default, during the period before the buyout occurs. Allocation for Activity: \$57,518,337 will be allocated to this activity. Based on local need, each applicant will determine amounts to be spent among the sub-activities. B. Lead Hazard/Lead-Based Paint Abatement Training This allocation will fund training for contractors and other professionals involved with lead hazard/lead-based paint abatement. Building capacity for this throughout the disaster recovery area is a critical need. Allocation for Activity: \$250,000 will be allocated to this activity. C. Housing Buyouts &ndash; FEMA Match CDBG funds will be used as the 15% local match required for the FEMA home buyouts in flood-prone areas. Allocation for Activity: \$20 million will be allocated to this activity D. New Housing Production Assistance will be provided to developers of new affordable rental and owner-occupied housing. These units will replace housing lost due to the disaster. The assistance may also be used for streets, sewer and water extensions linked to development of replacement housing. Allocation for Activity: \$23,035,737 will be allocated to this activity E. Small Business Stimulus Business owners suffering physical damage or economic loss will be offered forgivable loans up to \$50,000. The purpose of these loans is to provide working capital to help ensure business survival. Allocation for Activity: \$15 million will be allocated to this activity. F. Public Infrastructure - Match for FEMA Hazard Mitigation Projects CDBG funds will be used as the 15% local match required for infrastructure projects funded under the FEMA Hazard Mitigation Program. Allocation for Activity: \$16 million will be allocated to this activity G. Public Infrastructure - Non-FEMA This assistance is for projects that FEMA or other sources cannot fund, but which are nevertheless critical to recovery. Examples include damaged water and sewer systems, storm drainage, levees, roads and bridges. Allocation for Activity: \$15.75 million will be allocated to this activity H. Disaster REcovery Case Management The primary purpose of the Disaster Recovery Case Management activity is to ensure that all Iowans receive the necessary assistance and access to resources to recover from disaster. Case advocates will establish one-on-one relationships with individual clients impacted, to assess disaster related needs, develop long term recovery goals and plans, and implement steps to achieve their recovery goal. Allocation for Activity: \$1,302,200 will be allocated to this activity

## Progress Toward Activity Type Targets

## Progress Toward National Objective Targets

### Overall Progress Narrative:

The B-08-DF-19-0001 (Midwest Floods) grant is 78% committed at this time, with the remaining funds of over \$34 million split between Infrastructure and Housing funds. The remaining Infrastructure funds are mostly reserved for match to FEMA Hazard Mitigation projects yet to be determined. The housing funds are in several areas, and plans are currently underway to utilize these funds in either further buyout payments or for production of owner-occupied housing. The first appropriation housing funds have been heavily devoted to the single family homeowner arena, with rental projects being funded from the second appropriation (Ike) funds.

**Narratives****Disaster Damage:**

THE EFFECT OF THE DISASTERS AND IOWA'S RECOVERY NEEDS In the late spring and early summer of 2008, the State of Iowa suffered through a series of disastrous events, tornados followed by record-breaking floods. In some cases, the same community was hit by both events. Also, in some Iowa communities the 2008 flood crested 8 feet higher than the flood of 1993. Among the larger communities, Cedar Rapids, Iowa's second-largest city, was especially hard hit. It is estimated that 1300 blocks in Cedar Rapids were flooded to the point that repair/rehabilitation will be difficult to impossible in many of those areas. It is estimated that, statewide, over 21,000 housing units have been damaged, with over 4200 of those destroyed or suffering major structural damage. Also, an estimated 2400 businesses were damaged physically, and another 3000+ have suffered economic losses. It is quite clear that FEMA and SBA assistance will not come close to covering all of the uninsured costs associated with the damage.

**Recovery Needs:**

Following are estimates of damages compiled by the Rebuild Iowa Advisory Commission in just three community/economic development categories. (The full reports from the Commission are available at <http://rio.iowa.gov/> ) Economic and Workforce Development \*\*Total estimated unmet need for small and intermediate businesses - \$2.78 billion » » \$5.36 billion total assessed damage. » » Approximately 4,800 non-manufacturing small businesses and 800 intermediate businesses were impacted. \*\*Large businesses experienced an estimated \$100 million in losses. \*\*Small business and non-profit corporations - \$600 million in lost revenue in one year in the Cedar Rapids area, according to a report from Iowa Commercial Realty in Cedar Rapids. \*\*Physical damage to businesses from a Safeguard Iowa online survey - \$426,011,267; economic loss - \$178,593,361. \*\*Manufacturing damages and lost income from the ISU Center for Industrial Research and Service (CIRAS) survey - \$100 million projected. \*\*Increase in unemployment rate from Iowa Workforce Development data &ndash 3.9% in May; 4% in June; 4.3% in July, 4.6% in August. \*\*Initial claims for unemployment insurance program - increased by over 6,500 (over 44% increase) from May to June 2008, according to Mass Layoffs Statistics. Housing Cost to communities and to the state to repair and replace the damage to housing: \*\*The total unmet housing need is \$946 million for single family and multi-family housing. » » \$90 million is for rental property » » \$856 million is for single family dwellings \*\*The unmet housing need represents need remaining after all insurance and government housing program assistance is taken into account. Infrastructure and Transportation \*\*Roads and bridges » » Federal aid routes - \$30 million according to Iowa Department of Transportation as of August 8, 2008 » » County roads - \$43 million according to FEMA County Survey as of July 31, 2008 » » Roads and bridges - \$55 million according to FEMA as of July 29, 2008 \*\*Public Transit - \$53 million according to Iowa Department of Transportation as of August 8, 2008 Rebuild Iowa Advisory Commission \*\*Railroads, according to Iowa Department of Transportation as of August 8, 2008 » » Class 1 railroads - \$45 to \$60 million » » Short line railroads - \$23 million \*\*Communications and Utilities » » Telecommunications - \$66 million according to Iowa Telecom, rural independent telephone companies, and Qwest as of August 7, 2008 » » Public utilities (water, wastewater, power generation, communications) - \$342 million according to FEMA as of August 11, 2008 » » Private utilities and communications companies are not eligible for FEMA assistance. \*\*Flood control facilities (drainage channels, pumping facilities, some flood control facilities) - \$13 million according to FEMA estimates as of August 11, 2008 \*\*Public buildings and equipment - \$380 million according to FEMA estimates as of August 11, 2008 » » In order for public buildings located in a floodplain to receive FEMA assistance, they must pay the first \$500,000 of cost for damage to the structure and \$500,000 of cost for damage to contents. » » This creates an additional unmet need for many communities. \*\*Total estimated unmet need for public buildings and infrastructure - \$703 million » » Total damages to publicly-owned buildings and infrastructure - \$798.3 million » » Information was compiled in cooperation with other state and federal agencies by the Rebuild Iowa Office.

Demonstration of Unmet Needs

The most recent update of Iowa unmet disaster needs total \$3.373 Billion, and includes the following:

- A summary of unmet infrastructure needs conducted by the Iowa Department of Economic Development during May 2010. This summary consists of the combined list of projects related to disaster recovery that were applied for, but not funded, under a variety of

programs. This list was edited to avoid duplications. The total cost of the needed projects was \$1.455 Billion.

- An updated estimate of unmet housing needs made by the Iowa Finance Authority in November, 2008. The estimate for unmet needs for housing was \$956 Million.

- An updated estimate of unmet business needs made by the Iowa Department of Economic Development in December, 2008. The estimate for unmet business needs was \$962 million.

**Activity Description:**

Preparation of new flood plain maps for areas within the federally declared diaster areas in Iowa as a result of the floods of 2008.

This activity is a part of a Forward-thinking land use plan (DREF Qualifying Activity A).

**Location Description:**

Statewide

**Activity Progress Narrative:**

The following progress has occurred:

**Data Collection:** Additional stream centerlines of flooding sources have been digitized from high resolution LiDAR elevation data so that accurate flow area accumulations and peak discharges can be determined. Since Progress Report No. 1 (Nov. 4, 2010), six (6) additional HUC-8 watersheds in southwest Iowa have been completed and submitted to the Iowa Flood Center. The total number of HUC-8 watersheds with stream centerlines digitized is ten (10). There are fifty-seven (57) HUC-8 watersheds in the state of Iowa.

**Map Preparation:** The FEMA-required Quality Control (QC) plan development has continued beyond its initial planned completion date to accommodate adjustments made to hydrologic and hydraulic analysis procedures in the early stages of the project. The QC plan is scheduled for completion by February 25, 2011. Development of approximate method hydrologic and hydraulic analyses is nearly complete for the four (4) HUC-8 watersheds undergoing Risk MAP work in southwest Iowa.

**Map and Data Storage in Digital Format:** Work continues on a data warehouse to include geospatial databases that meet the requirements of FEMA guidelines and specifications, and will include data formats for use in enterprise GIS systems. This flood hazard data will also be accessible to various client applications such as internet browsers, desktop GIS systems, and relational databases.

Two new lift stations and 42 manholes.

This project is designed to mitigate flooding as well as excessive infiltration and inflow of ground- and surface waters into the sewer system such as that caused by the 2008 disaster, which resulted in treatment plant overloads and sewage backups. The activity creates an improved facility over that which existed prior to the disaster.

State review of local financial capacity indicates that the project is unlikely to proceed without CDBG &ndash DR funds.

At the request of the State, the applicants have determined percentages of residential vs. non-residential impact through reviewing engineering maps, zoning maps, and/or specific parcel data.

This activity is a DREF qualifying activity C.
