## Narratives

### Disaster Damage:

THE EFFECT OF THE DISASTERS AND IOWA'S RECOVERY NEEDS In the late spring and early summer of 2008, the State of Iowa suffered through a series of disastrous events, tornados followed by record-breaking floods. In some cases, the same community was hit by both events. Also, in some Iowa communities the 2008 flood crested 8 feet higher than the flood of 1993. Among the larger communities, Cedar Rapids, Iowa's second-largest city, was especially hard hit. It is estimated that 1300 blocks in Cedar Rapids were flooded to the point that repair/rehabilitation will be difficult to impossible in many of those areas. It is estimated that, statewide, over 21,000 housing units have been damaged, with over 4200 of those destroyed or suffering major structural damage. Also, an estimated 2400 businesses were damaged physically, and another 3000+ have suffered economic losses. It is quite clear that FEMA and SBA assistance will not come close to covering all of the uninsured costs associated with the damage.

### Recovery Needs:

Following are estimates of damages compiled by the Rebuild Iowa Advisory Commission in just three community/economic development categories. (The full reports from the Commission are available at <http://rio.iowa.gov/> ) Economic and Workforce Development \*\*Total estimated unmet need for small and intermediate businesses - \$2.78 billion »» \$5.36 billion total assessed damage. »» Approximately 4,800 non-manufacturing small businesses and 800 intermediate businesses were impacted. \*\*Large businesses experienced an estimated \$100 million in losses. \*\*Small business and non-profit corporations - \$600 million in lost revenue in one year in the Cedar Rapids area, according to a report from Iowa Commercial Realty in Cedar Rapids. \*\*Physical damage to businesses from a Safeguard Iowa online survey - \$426,011,267; economic loss - \$178,593,361. \*\*Manufacturing damages and lost income from the ISU Center for Industrial Research and Service (CIRAS) survey - \$100 million projected. \*\*Increase in unemployment rate from Iowa Workforce Development data - 3.9% in May; 4% in June; 4.3% in July, 4.6% in August. \*\*Initial claims for unemployment insurance program - increased by over 6,500 (over 44% increase) from May to June 2008, according to Mass Layoffs Statistics. Housing Cost to communities and to the state to repair and replace the damage to housing: \*\*The total unmet housing need is \$946 million for single family and multi-family housing. »» \$90 million is for rental property »» \$856 million is for single family dwellings \*\*The unmet housing need represents need remaining after all insurance and government housing program assistance is taken into account. Infrastructure and Transportation \*\*Roads and bridges »» Federal aid routes - \$30 million according to Iowa Department of Transportation as of August 8, 2008 »» County roads - \$43 million according to FEMA County Survey as of July 31, 2008 »» Roads and bridges - \$55 million according to FEMA as of July 29, 2008 \*\*Public Transit - \$53 million according to Iowa Department of Transportation as of August 8, 2008 Rebuild Iowa Advisory Commission \*\*Railroads, according to Iowa Department of Transportation as of August 8, 2008 »» Class 1 railroads - \$45 to \$60 million »» Short line railroads - \$23 million \*\*Communications and Utilities »» Telecommunications - \$66 million according to Iowa Telecom, rural independent telephone companies, and Qwest as of August 7, 2008 »» Public utilities (water, wastewater, power generation, communications) - \$342 million according to FEMA as of August 11, 2008 »» Private utilities and communications companies are not eligible for FEMA assistance. \*\*Flood control facilities (drainage channels, pumping facilities, some flood control facilities) - \$13 million according to FEMA estimates as of August 11, 2008 \*\*Public buildings and equipment - \$380 million according to FEMA estimates as of August 11, 2008 »» In order for public buildings located in a floodplain to receive FEMA assistance, they must pay the first \$500,000 of cost for damage to the structure and \$500,000 of cost for damage to contents. »» This creates an additional unmet need for many communities. \*\*Total estimated unmet need for public buildings and infrastructure - \$703 million »» Total damages to publicly-owned buildings and infrastructure - \$798.3 million »» Information was compiled in cooperation with other state and federal agencies by the Rebuild Iowa Office. Demonstration of Unmet Needs

The most recent update of Iowa unmet disaster needs total \$3.373 Billion, and includes the following:

- A summary of unmet infrastructure needs conducted by the Iowa Department of Economic Development during May

2010. This summary consists of the combined list of projects related to disaster recovery that were applied for, but not funded, under a variety of programs. This list was edited to avoid duplications. The total cost of the needed projects was \$1.455 Billion.

- An updated estimate of unmet housing needs made by the Iowa Finance Authority in November, 2008. The estimate for unmet needs for housing was \$956 Million.

- An updated estimate of unmet business needs made by the Iowa Department of Economic Development in December, 2008. The estimate for unmet business needs was \$962 million.

Documentation on these estimates is available at The Iowa Department of Economic Development.

## Overall Progress Narrative:

Overall Narrative:

DI Grant (2<sup>nd</sup> appropriation) Quarter ending 3/31/2022:

The B-08-DI-19-0001 (Ike) grant was committed to a variety of activities including housing repair/rehabilitation, housing buy-outs, business assistance, infrastructure, planning, watershed projects, etc.

IEDA has worked closely with Recipients and Multi-family project developers to ensure successful completion of two projects that were delayed/alterd as a result of a fire and a bankruptcy. The bankruptcy project has been resolved and completed. No additional CDBG-DR funds were needed, as such no further awards or activities were established in DRGR. The project destroyed by Fire was recently granted a time extension as a result of pandemic related construction delays. The current construction schedule anticipates completion in November of 2022, with full occupancy and leasing by the end of Q1 2023.
