

2021 U.S. and Iowa Ag Exports

Below is summary export data obtained from WISERTrade on Iowa-focused protein and grain commodities. The report includes year-to-date (YTD) trade data, including projected agriculture adjusted data by state-of-origin/source of commodity for those overseas trade markets from January-December 2021.

Full-Year 2021 Highlights

- **In 2021, the American agricultural industry noted record high export levels.**
 - U.S. food and farm product numbers increased **18% from 2020**, reaching an export total dollar amount of \$177 billion.
- Corn exports continued its increase to end 2021, totaling \$19.11 billion.
 - **Iowa corn exports saw a slight, consistent increase, ending the year with a projected value total of \$3.29 billion.**
 - China, Mexico and Japan remain the respective leading recipients of both U.S. and Iowa specific corn exports.
- While soybean exports to China have seen sharp curves over the past 6 months, other markets such as **Egypt and Taiwan have had positive import numbers from the U.S.**, and Mexico showed steady gains year over year.
 - The 2021 total for U.S. soybean exports reached \$27.52 billion, with **Iowa contributing \$3.6 billion** to that total.
 - Mexico's importing of Iowa soybeans saw an initial increase over the first two months of the fourth quarter, followed by a slight decrease over the last month (*see page 6*).
- Pork exports have seen a general increase since the end of the third quarter.
 - **Japan and Korea led the increase for both U.S. and Iowa pork exports.**
 - Canada and China both showed consistent decreases in U.S. and Iowa pork imports over the fourth quarter.
 - **Iowa leads all states with one-half of U.S. pork exports** (*see page 4*).
- Beef exports, specifically to Japan, Korea, Mexico and Taiwan saw an initial rise between October to November, followed by a decrease from November to December.
 - However, **Canadian imports of beef saw a consistent increase.**
- **Iowa liquid egg exports show a strong positive gain for Japan and Canada**, and fluctuations in other countries (*see page 3*).
- Supporting data charts can be found on subsequent pages for beef, eggs, pork, corn and soybeans.
