Activity Description:

Home Energy Rating System (HERS) Rater services for Disaster Recovery Housing projects. To comply with the federal funding requirements that all disaster recovery housing projects be built to a green building standard, all Iowa disaster recovery housing projects must meet the design and construction requirements of the Iowa Green Streets Criteria. The Iowa Green Streets Criteria is an overlay of the national Green Communities Criteria developed by Enterprise. To verify that housing projects have met the energy performance requirements of the Iowa Green Streets Criteria, the HERS rater works with project designers to design high-performance homes and then completes verification monitoring and testing during various stages of home construction, resulting in the issuance of a HERS certificate and HERS Index for the home.
